**Fees & Care Plans:**

Initial Exam	\$95 - \$125
X-rays	\$75/set (typically 2 sets with initial start up)
Adjustments	\$45 - \$60
Re-Exam	\$60

On your second visit, Dr. Sullivan will review the results of your exam and go over your care plan. We will also review your financial responsibilities regarding your care. If you have insurance, please read the section below.

**Insurance:** We used to be 'in network' with many insurance companies however we found being 'out of network' offered most of our patients' *better* coverage and *fewer* restrictions. We can work with most insurance companies to submit claims electronically on your behalf. Currently we are '**in network**' with **Medicare** and are considered '**out of network**' for **all others**. You may call the (800) number on the back of your card to check your coverage; however, we will call to verify your chiropractic benefits and discuss them with you on your second visit when the doctor reviews your care plan.

**MEDICARE** – Medicare has limited chiropractic coverage; however, they **DO NOT** contribute towards the **initial exam or x-rays** in a chiropractic office. Your initial visit will most likely include the initial exam (\$95) and both sets of x-rays (\$150), for a total cost of \$245.

**MEDICAID** – Currently Medicaid DOES NOT offer ANY chiropractic benefits. The fees listed above will be your full financial responsibility if you have Medicaid or any Medicaid type policy.

I understand that I am directly and fully responsible to BC Family Chiropractic for all fees associated with chiropractic care whether or not paid by insurance. If I have insurance, I authorize and assign all insurance benefits payable to me for services rendered if BC Family Chiropractic accepts assignment on my behalf. I authorize use of my signature below on all insurance submissions. Copies of any x-ray reports will be released upon written request, however the original films are the sole legal property of this practice and that by law the doctor must retain these films for a period of no less than 7 years.

The above information is true and accurate to the best of my knowledge.
