Whom may we thank for referring you?______________ □ Phone Book □ Website □ Sign □ Other______________

Prenatal History: *(circle, highlight or write where applicable)*

1) Is this your first pregnancy? Yes No How many other births have you had? ______________
2) How many weeks pregnant are you?_______wks What is your estimated due date? ________________
3) If you are in your 3rd trimester, what position is your baby in? Vertex (head down) Breech (see below)
4) Were there any challenges trying to conceive for this pregnancy? Yes No ____________________________
5) Where do you plan on delivering? Home Birthing Center Hospital Other______________
6) Who is your birth care provider? Lay Midwife Nurse Midwife OBG Name______________
7) Who will you have with you at birth for support?____
8) Have you put together a birth plan? Yes No
9) Have you experienced any traumas (accidents, falls) during this pregnancy? Yes No

   Please describe:____
10) Have you had any evaluation procedures (ultrasound, amniocentesis, chorionic villus sampling)? Yes No

    Dates / frequency & reasons:____

    ____
11) Have there been any stressful events in your life during this pregnancy? Yes No

    Please describe:____
12) What are your most significant concerns associated with this birth?______________________________
13) Are you taking any prenatal supplements? Yes No (multi, fish oil, vit D)_________________________
14) Any medications during this pregnancy? Yes No ______________________________________

Present State of Health (presenting symptoms): Most pregnant women visit our office to give themselves and their baby the best opportunity to have a natural vaginal birth. However, some women also experience symptoms during their pregnancy. If you have a specific concern, please complete the following section. If you are here for a wellness visit, skip to the next section. *(circle, highlight or write where applicable)*

If this visit is concerning a breech presentation, please complete the following:

a. What position is your baby in now? Transverse Complete Footling Frank Kneeling Other________________
b. Was it confirmed by ultrasound? Yes No When was the last test to confirm the baby's position?_________
c. At what gestational week did you first learn your baby was breech?_________Wks
d. Have you tried any procedures or maneuvers yet? Yes No Explain:______________________________
e. Are you familiar with the chiropractic Webster Technique? Yes No

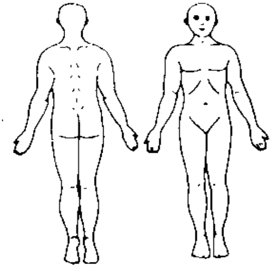
1st Concern____

Been a problem for: (please specify #) ______Day(s) ______Week(s) ______Month(s) ______Year(s)

a. Quality of symptom is: Sharp Dull Numb Tingling Burning Stiff Other______________ ***Mark areas below***



b. Condition came on: Sudden Gradual How:____________________________________

c. It is: Constant / Frequent ***(daily)*** / Intermittent ***(several/wk)*** / Occasional ***(1/wk or less)***

d. Feels worse in: AM Noon PM In Bed It Varies It's getting: Better Worse No Change

e. Rate on a scale of 1-10 *(10 = worst)* at its worst:____________________________________

f. What makes it better?____

g. What makes it worse?____

h. Have you seen anyone for this? Yes No Who?____________________________________

i. How does it interfere with your life (sleep, work, play, driving, lifting, etc.)____________________________________

Other Concerns *(Please briefly describe)*____

____

Are ANY of the above complaints related to an auto or work injury? Yes No__________________________

<u>Wellness Profile:</u> Chiropractic care affects more than just muscles, joints and how we feel. Chiropractic helps our bodies function at a higher level which increases our overall health and wellness. Please share with us what health goals you hope to achieve. *(Circle as many goals as you wish)*

More Energy	Better Sleep	Freedom from Pain
Easier Breathing	Improved Posture	Improved Nutrition & Diet
Improved Coordination	Eliminate Medications	Improved Overall Health
Better Sports Performance	Stress Reduction	Better Concentration
Stronger Immune System	Other____	

<u>Spinal Health:</u> *(circle, highlight or write where applicable)*

1) Have you ever visited a doctor of chiropractic before? Yes No Who?____________________________________

   When was your last visit?_________________ Reason for ending care?____________________________________

2) Have you ever had spinal x-rays taken? Yes No When?___________ Were you standing? Yes No

3) Circle/explain if you have: Scoliosis Spinal Arthritis Inherited Spinal Problem____________________________

4) Spinal misalignments cause decay and degeneration which results in grinding or cracking.

   Do you ever hear noises when you move your head or neck? Yes No

5) Spinal misalignments can make you feel the need to twist, stretch or crack your neck or spine.

   Do you ever feel the need to twist, stretch or crack your neck or spine? Yes No

6) Poor posture leads to poor health and often indicates spinal problems. Please rate your posture.

   Poor - 1 2 3 4 5 6 7 8 9 10 - Excellent

7) Stress can cause or accelerate spinal damage. Rate your stress level over the last 90 days.

   Low - 1 2 3 4 5 6 7 8 9 10 - High

8) Have you ever had spinal surgery? Yes No If yes, when & where? ____________________________________

<u>Injuries/Surgeries:</u> *(Date & Description)*

Auto Accidents: N/A / ____

Recreational Accidents: N/A / ____

Fees & Care Plans:

Initial Exam	$95 - $125
Adjustments	$45 - $60
Re-Exam	$60

On your second visit, Dr. Sullivan will review the results of your exam and go over your care plan. We will also review your financial responsibilities regarding your care. If you have insurance, please read the section below.

Insurance: We used to be 'in network' with many insurance companies however we found being 'out of network' offered most of our patients' *better* coverage and *fewer* restrictions. We can work with most insurance companies to submit claims electronically on your behalf. Currently we are ***'in network'*** with **Medicare** and are considered ***'out of network'*** for **all others**. You may call the (800) number on the back of your card to check your coverage; however, we will call to verify your chiropractic benefits and discuss them with you on your second visit when the doctor reviews your care plan.

MEDICARE – Medicare has limited chiropractic coverage; however, they ***DO NOT*** contribute towards the ***initial exam*** in a chiropractic office. The fee for the initial exam is listed above.

MEDICAID – Currently Medicaid DOES NOT offer ANY chiropractic benefits. The fees listed above will be your full financial responsibility if you have Medicaid or any Medicaid type policy.

I understand that I am directly and fully responsible to BC Family Chiropractic for all fees associated with chiropractic care whether or not paid by insurance. If I have insurance, I authorize and assign all insurance benefits payable to me for services rendered if BC Family Chiropractic accepts assignment on my behalf. I authorize use of my signature below on all insurance submissions. Copies of any x-ray reports will be released upon written request, however the original films are the legal property of this practice and that by law the doctor must retain these films for a period of no less than 7 yrs.

The above information is true and accurate to the best of my knowledge.

Informed Consent

We encourage and support a **shared decision making process** regarding your health needs. As a part of that process you have a right to be informed about the condition of your health and the recommended care and treatment to be provided to you so that you can make the decision whether or not to undergo such care with full.

Chiropractic is based on the science which concerns itself with the relationship between structures (primarily the spine) and function (primarily of the nervous system) and how this relationship can affect the restoration and preservation of health.

Adjustments are made by chiropractors in order to correct or reduce spinal and extremity joint subluxations. **Vertebral subluxation** is a condition where one or more vertebra in the spine is misaligned and/or does not move properly causing interference and/or irritation to the nervous system. The primary goal in chiropractic care is the removal and/or reduction of nerve interference caused by vertebral subluxation. A chiropractic examination will be performed which may include spinal and physical examination, orthopedic and neurological testing, palpation, specialized instrumentation and/or radiological examination (x-rays).

The **chiropractic adjustment** is the application of a precise movement and/or force into the spine in order to reduce or correct vertebral subluxation(s). There are a number of different methods or techniques by which the chiropractic adjustment is delivered but are typically delivered by hand. Some may require the use of an instrument or other specialized equipment. Among other things, chiropractic care may reduce pain, increase mobility and improve quality of life.

In addition to the benefits of chiropractic care and treatment, one should also be aware of the existence of some **risks and limitations** of this care. The risks are seldom high enough to contraindicate care and all health care procedures have some risk associated with them. Risks associated with some chiropractic treatment may include soreness, musculoskeletal sprain/strain, and fracture. In addition there are reported cases of stroke associated with visits to medical doctors and chiropractors. Research and scientific evidence does not establish a cause and effect relationship between chiropractic treatment and the occurrence of stroke; rather, recent studies indicate that patients may be consulting medical doctors and chiropractors when they are in the early stages of a stroke. In essence, there is a stroke already in process. However, you are being informed of this reported association because a stroke may cause serious neurological impairment.

I have been informed of the nature and purpose of chiropractic care, the possible consequences of care, and the risks of care, including the risk that the care may not accomplish the desired objective. Reasonable alternative treatments have been explained, including the risks, consequences and probable effectiveness of each. I have been advised of the possible consequences if no care is received. I acknowledge that no guarantees have been made to me concerning the results of the care.

I HAVE READ THE ABOVE PARAGRAPH. I UNDERSTAND THE INFORMATION PROVIDED. ALL QUESTIONS ABOUT THIS INFORMATION HAVE BEEN ANSWERED TO MY SATISFACTION. HAVING THIS KNOWLEDGE, I KNOWINGLY AUTHORIZE BC FAMILY CHIROPRACTIC TO PROCEED WITH CHIROPRACTIC.
